

Corcoran Jennison congratulates HOU on the Best Practices Award from HUD on the Villages at Montpelier. Your leadership in the turnaround of this community is yet another of the many successes Housing Opportunities Unlimited has achieved
 -Gary A. Jennison, Chairman, Corcoran Jennison

The Boston Housing Authority has worked with HOU on multiple redevelopment initiatives. HOU consistently delivers high-quality relocation and case management services to our residents. Our residents are shown compassion and sensitivity by HOU relocation staff who are also tasked with completing the relocation program on time so that we can move forward with demolition and new construction. HOU is unquestionably an important partner to us and one that we depend on regularly.
 -Deborah Morse, former Director of Real Estate Development, Boston Housing Authority

I commend you and the Housing Opportunities Unlimited staff for all that you have and continue to do with and for the residents from the NW-1 community to Park Morton. The details of the work performed are a great example of what is needed to help residents overcome barriers achieve self-sufficiency, and make the New Communities Initiative a successful program.
 -Coyan Lewis, Project Manager, Office of the Deputy Mayor for Planning and Economic Development, Washington DC

HOU's services are a perfect complement to management services. They are an integrated partner that serves a multitude of needs. They connect people to services that are beyond a property management company's expertise. In this way, HOU strengthens a sense of community and reduces unnecessary turnover.
 -Timothy Chamberlain, Townhomes on Capitol Hill

My experience with HOU has been enriching, eventful and resourceful. Since the relocation from Temple Courts which had been my residence for over 20 years, I have successfully relocated to East of the River communities where my children are active in educational programs. We attend church for spiritual growth and I'm glad to say I've been 24 months sober. I'm currently employed, a student at UDC studying medical radiography, and a positive role model for my kids. I'm in the process of cleaning my credit which is my current short term goal so I can be debt free and turn my HCV to a mortgage payments under the first time home buyers program. I have a strong network where I'm able to be myself utilizing positive interpersonal skills and being happy. I had to be humble, use my resources and open up in order to stay from seclusion. I'm free, blessed and on a roll. All of this would not be possible without the dedication and support from HOU.
 -Maria Henry, Temple Courts

Corcoran Jennison's success with mixed-income housing is due to the attention we give to social services for our residents. To that end, HOU has been our indispensable partner. Congratulations to all the employees of HOU for providing the essential element in successful housing – caring about the residents.
 -Joe Corcoran, Corcoran Jennison Companies

Living at Temple Courts has been a struggle and a success in itself, especially being a single mother of 2. We lived there for 8 years with broken elevators, dark hallways, drugs, and destruction in and around the dwellings. I managed to hold down a career for nine years but it was not easy. Through all of the bad, good came out when the Mayor appointed HOU's Relocation and Case Management teams. Michal, Megnole, and Tiffany helped me tough it out. HOU helped us with boxes, tape, and all our moving needs were met. I will never forget the help received while looking for my first home. Unfortunately we lost it all in a senseless fire but HOU's Case Management team was right there again through that tragedy and did not give up until I found a new home. We truly appreciate HOU and commend them highly on their dedication to our family and all of the Temple Courts residents.
 -Angela James, resident, Temple Courts, Washington, DC
